If you ever get into the Spice islands would you ever think of me

G am C  
Would you ever think of being in a super harbor

am C G  
I'm sure you sailed along the seas

G am C am C G  
I left tonight, after blue bold skies, then I dreamt a dream of you

G am C am C D G  
I could never think it all through And I never felt that you were always all right

G am C am c g  
When you ever spread your wings and fly you can always send for me

G am C am C G  
I would never show each and every flier all the things that I showed you

G am C am C D G  
Night time with my svelte partner night time with you and that's all right

G am C am C g  
If you ever fly through those islands the breeze and seas will set you free
